

## Ben Webster | Personal Profile

Electrical Design Engineer

### Profile

Ben was first introduced to the Company as a work experience student. He was later invited to join the Team, and in the summer of 2007 he became the third Junior Engineer employed as part of our Training Academy.

Having spent the first five years studying Building Services on day release at college and university, he went on to study for a Degree at London South Bank University. In 2014, he successfully completed his studies and achieved a First Class Honours Degree in Building Services Engineering.

Ben has already gained vast amounts of knowledge and experience and is a very competent Engineer. He heads up our Sustainability Team and ensures TNG is always aware of the latest renewable technologies and legislative requirements. You will not meet a more supportive and obliging person than Ben. He is always professional and will go out of his way to ensure his Clients are able to meet their goals.

### Qualifications

**BEng** (Hons) (First Class) from London South Bank University

### Memberships

**Graduate Member of CIBSE**

### More about Ben

*At the weekends you will find me... **racing my motorcycle.***

*One day I would like to... **win the lottery.***

*If I won the lottery I would... **go travelling with my fiancé (sorry TNG)***
