

## Ben O'Shea | Personal Profile

Intermediate CAD/BIM Technician

### Profile

Having joined the company and CAD Team in 2014, Ben is currently working his way towards becoming a qualified CAD and BIM Technician. He is responsible for producing CAD drawings for the wide range of projects we work on at TNG.

Despite his mischievous grin, Ben has a quiet and calm nature. He is polite and helpful and is always head down and fully focused on his work. Ben's strength is his ability to build a rapport with his team members and the rest of the office. He produces AutoCAD drawings to a very high standard that follow our certificated QA procedures.

With guidance from our BIM Manager, Ben is developing his Revit capabilities and is hands-on with all of our in-house BIM projects.

### Recent Training

**Asbestos, Equality and Diversity, Emergency Lighting, Environmental Awareness, Display Screen Equipment**

### More about Ben

*At the weekends you will find me...*

**Watching Southampton F.C. and socialising with friends.**

*If I won the lottery I would...*

**Love to travel the world and visit all the biggest football stadiums**

*An interesting fact about me...*

**I managed to get front row at Reading Festival to watch the Libertines – the best band I've ever seen.**
