

## Craig Oliver | Personal Profile

Mechanical Design Engineer

### Profile

Craig has over 25 years' experience of working in Building Services Consultancies. Throughout his career, he has worked for some national sized companies, which has enabled him to obtain a vast range of experience of project and Client requirements, and general working practices.

Gaining an understanding of the diverse needs of his different clients, and delivering projects which satisfy the end users requirements, at the same time meeting client's expectations, is what Craig finds most rewarding about his work.

He is a diligent and technically accomplished Designer with a passion for technology. He is a reliable and approachable member of the team and will bring a collaborative and co-operative approach to team working on all projects.

### Qualifications

**HNC** in Mechanical Engineering Services
