

David Spark | Personal Profile

CAD Manager / Senior CAD & BIM Technician

Profile

David manages the CAD Team, and is a Senior CAD Technician with vast project experience and engineering knowledge. Working in collaboration with our in-house BIM Manager, Dave is responsible for all projects that come through the CAD department whether 2D AutoCAD drawings or 3D Autodesk Revit models.

Dave is a gentle and kind team member. He is a true gentleman and has high values and standards. He is also able to embrace technology and is an avid supporter of change and advancement. Having an acute conscience about completing a task, Dave will always maintain focus until a project is 100% completed.

Qualifications

ONC BTEC Building Services

City & Guilds 236 Parts 1 & 2 Electrical Installations Competences,

City & Guilds Computer Aided Design Level 2

Other Training

Revit MEP Family Creation, Revit MEP 2013

More about Dave

At the weekend you will find me...

...because I'm not very good at hiding 😊

If I could have any super power it would be...

Healing power – imagine all those aches and pains being a thing of the past.

One day I would like to...

Visit Australia and New Zealand and take another road trip around the USA.
